Republicans in this part of the State pretend to deny that their party is in favor of
extending the right of suffrage to negroes,
while it is a noted fact, that Dennison,
Chase, and Giddings, sud the leaders of the party everywhere, make this doctrine a prominent plank in their political platform. That clause in the State Constitution which | ment is from the Detroit Free Press: endows free white male citizens with the right of suffrage, they interpret to mean all colored persons who are more than half tants. There are hundreds of families, the colored persons who are more than half white. Under this construction of the Constitution, this class of negroes are allowed the unlimited privilege of voting, and as it is a difficult matter to decide the exact amount of white and black blood a colored man has in his veins, negroes as black as an imp of darkness were permitted to vote all over the State, and on the Western Reserve especially, upon the simple statement that they were half white. In order to do away with this crying avil and preserve the purity of elections in the State, the Democrats of the last Legislature passed an act declaring, that no man who had one single with this crying evil and preserve the purity of elections in the State, the Democrats of the last Legislature passed an act declaring, that no man who had one single drop of negro blood in his veins was a white man, and that he should be debarred from voting.
